Revenue By Product Category Jan'22-Mar'23

KEY INSIGHTS

- Comparing **Q1'22 with Q1'23**, there is a significant revenue drop by **22.2%**. Also comparing **Q4'22 with Q1'23**, Q1'23 recorded **13.9% drop in revenue**.
- **Q1'22 and Q1'23 had similar revenue pattern with January high, dropped in February and increased in March except Q1'23 which had January revenue greater than March.** This could be as a result of **cash crunch and 2023 general elections**.
- It was evident from analysis and Visualization of **Top 5 months** with highest revenue that **not only Q1 every year had highest revenue**, there are other months that performed very well. There should be expectation of good performance in terms of revenue in **May, June and November based on data**.
- For Payment category, **Payment by MTN contributed 93%**, Coralpay contributed **5%** while while QuickTeller contributed **1.2%** and NIBSS contributed **0.8%**.
- For Revenue by product category, **MTN-Legacy contributed 74.2%**, **MTN Unified contributed 17.8%**, **Airtel Non-LCP contributed 6.6%** while **LCP contributed 1.4%**. This could be as a result of repayment by numerous customers who subscribed to MTN payment method.
- **Total Acquisition in Q1'22, Q4'22&Q1'23 was 2161 out of which outright was 1612, represents 75%.** This means the number of customers subscribing to rate plans are dropping or the target audience by lumos box sellers are those who could afford the box either outright or through rate plans. This is good for business as quantity and quality should be positively correlated.
- Out of **1333** acquisition between Dec'22 to Mar'23, LCP recorded **713** sales, accounted for **35%**. This is good if this area could be explored more.
- Comparing the revenue generated through Lumos Community Partners between Dec'22-Mar'23 which is **129m** naira with incentive paid out of approximately **8m** naira which is **6%**. This area of incentive partnership should be explored more for upselling of lumos box.
- For revenue according to region **South West recorded highest revenue, accounted for 32%** followed by South **28%**, while North accounted for **23%**, Lagos and FCT had **9%** and **8%** respectively. There is an undefined locations accounted for **0.2%**.

RECOMMENDATIONS

- Since the **outright sales take larger percentage of new acquisition**, it is recommended to know the **demography of buyers**, as such, **IT department should create additional fields for occupation, sex, age and the right locations using REA template for new customers**. This will help in **further analysis of customer's pattern**.
- The area of partnership should be explored more for good outreach and upselling of lumos box which will be incentive based. Partnering with already established big organizations will help in the upselling of lumos box
